Background

Paper

#F5F1EA

Wordmark / text

Rivet

#FFE0A3

Hinge accent

Typography: Inter SemiBold for the wordmark (tracking +40), Inter Regular for body copy.

Blade gradient: Ember #FF5A5F · Amber #FFB547, bottom-left to top-right, per blade.

Logo construction: five blades open from a single rivet (the hinge). Keep proportions exact.

Lockup: symbol left, wordmark right, gap = $0.35 \times$ symbol height, wordmark cap height = $0.42 \times$ symbol height.

Motion: blades unfold from the hinge with a gentle spring; the brand never flashes pure white for long.

Do not: use pure red #FF0000, recolour the blades, rotate the symbol, or place it on busy imagery.
